The beauty of natural timber is the grain, variation in colour and the shade. We cannot therefore guarantee that any two pieces of timber will be an exact match within or from piece to piece.

The Chateau Collection

Our Chateau collection is an opulent range of solid oak furniture derived from C18th French designs. Our subtle changes and smooth flowing lines ensure it remains suitable and popular today.

Individually hand crafted, The Chateau Collection is not a mass produced range. Each piece is carefully made by highly skilled cabinet makers who between them have hundreds of years' worth of expertise.

Carefully selected and seasoned European oak is used for the exterior and pear wood is used internally for the back panels and drawer bases.

The range is meticulously finished by skilled polishers. The result is a rich patina that is warm and mellow, enhancing the richness of the timber.

We have applied great attention to details to honour the original designs. All the wardrobes dismantle for ease of access. The legs on the table are removable and each chest of drawers has a 'concealed' top drawer.

It should be noted that the furniture is of impressive proportions offering practical storage options.
